<div>SCOPE</div> <div>IEEE Access® is a multidisciplinary, open access (OA), applications-oriented, all-electronic archival journal that continuously presents the results of original research or development across all of IEEE's fields of interest. IEEE Access will publish articles that are of high interest to readers, original, technically correct, and clearly presented. Supported by author publication charges (APC), its hallmarks are a rapid peer review and publication process with open access to all readers. Unlike IEEE's traditional Transactions or Journals, reviews are "binary", in that reviewers will either Accept or Reject an article in the form it is submitted in order to achieve rapid turnaround. Especially encouraged are submissions on: Multidisciplinary topics, or applications-oriented articles and negative results that do not fit within the scope of IEEE's traditional journals. Practical articles discussing new experiments or measurement techniques, interesting solutions to engineering. Development of new or improved fabrication or manufacturing techniques. Reviews or survey articles of new or evolving fields oriented to assist others in understanding the new area.</div>

Metrics based on Scopus® data as of April 2022

M

Mostafa 9 months ago

Hello,

I would like to kindly ask when the ranking of IEEE Access is available for 2021?

best regards,

Mostafa

reply

**Melanie Ortiz** 9 months ago

SCImago Team

Dear Mostafa,

Thank you for contacting us. Our data come from Scopus, they annually send us an update of the data. This update is sent to us around April / May every year. The SJR for 2020 was released on 17 May 2021. Therefore, the indicators for 2021 will be available in May/June 2022 and before that date we can't know what will happen with this journal.

Best Regards, SCImago Team

U

Usama Khaled 1 year ago

Dear Scopus team of IEEE Access journal

Regarding to our published paper:

Abderrahmane Beroual, Usama Khaled, Aassem AlGhamdi, "DC Breakdown Voltage of Synthetic Ester Liquid-based Nanofluids", IEEE Access, vol. 8, pp. 125797-125805, July 2020.

You forgot to mention both affiliation of 2nd author in Scopus database while it's correct in Web of Science database.

Please add my second affiliation (Department of Electrical Engineering, Faculty of Energy Engineering, Aswan University, Sahary City 81528, Egypt) to correct this mistake as soon as possible.

Best regards

Usama Khaled

SCImago Team

Dear Usama,

Thank you for contacting us.

We are sorry to tell you that SCImago Journal & Country Rank is not a journal. SJR is a portal with scientometric indicators of journals indexed in Elsevier/Scopus.

Unfortunately, we cannot help you with your request, we suggest you contact the journal's editorial staff, so they could inform you more deeply.

Best Regards, SCImago Team

Is it top 10

reply

**Melanie Ortiz** 2 years ago

SCImago Team

Dear Imtithal,
Thank you for contacting us.
We suggest you use the Journal Rankings Tool shown on our website.
Best Regards, SCImago Team

H **Hadiyanto** 2 years ago

How long, this journal had been included in scopus index? Is it ok a journal published thousand of pages in one issues?, I found some journal Q1 had been removed from scopus in short time. How can?. I am going to submit my article to this journal, but I am still doubt.

reply

**Melanie Ortiz** 2 years ago

SCImago Team

Dear Hadiyanto,
Thank you very much for your comment.
All the metadata have been provided by Scopus /Elsevier in their last update sent to SCImago, including the Coverage's period data. The SJR for 2019 was released on 11 June 2020. We suggest you consult the Scopus database directly to see the current index status as SJR is a static image of Scopus, which is changing every day.
For further information, please contact Scopus support:
https://service.elsevier.com/app/answers/detail/a_id/14883/kw/scimago/supporthub/scopus/
Best Regards, SCImago Team

SCImago Team

Dear Derek, SJR is a portal with scientometric indicators of journals indexed in Scopus. SJR has no authority over the data of the journals; they are the ones that Scopus sends us. The metadata are property of Scopus. SCImago has a signed agreement that limits our performance to the generation of scientometric indicators derived from the metadata sent in the last update. We suggest that you contact Scopus through this link to report the inconsistencies or modifications that you want to make in SCImago:
https://service.elsevier.com/app/answers/detail/a_id/14883/kw/scimago/supporthub/scopus/.
Best Regards, SCImago Team

The users of Scimago Journal & Country Rank have the possibility to dialogue through comments linked to a specific journal. The purpose is to have a forum in which general doubts about the processes of publication in the journal, experiences and other issues derived from the publication of papers are resolved. For topics on particular articles, maintain the dialogue through the usual channels with your editor.
